County Legislator
Jackson County, Missouri

The Honorable Harold Holliday:

More and more we are finding that a large percentage of our school age children are not satisfactorily mastering the basic academic and social skills for life. It is also apparent that our present programs and facilities in the State of Missouri as well as in the Kansas City School District are inadequate in quantity to provide help for these great numbers of children.

A Diagnostic Center designed to test the children who are suspect of having learning disabilities, emotional problems and other special education problems would provide a great service to many children in the schools and to the Kansas City School District.

Therefore, I would like to solicit your interest in and support for the use of Revenue Sharing Funds for the establishment of an Educational Assistance Center.

Dear Ms. Wilson:

The Finance Committee of the Jackson County Legislature has recommended \$122,800 of the county's revenue sharing money be allocated to the Kansas City Education Assistance Center.

I have held this center as a top priority since Dr. MacNeven made his request for funding to the Finance Committee.

Thank you for your concern.

Sincerely,
